About This Game

The debt collection industry is waiting for you!

We employ high-class specialists whose experience guarantees the high effectiveness of debts collection. We solve cases based on invoices, judgments, court orders as well as unsuccessful bailiff executions and the actions of other debt collection companies.

We achieve our high effectiveness through the direct visits of debt collectors throughout the country.

Choose the best orders!

You will have the opportunity to participate in debt collection from the beginning to the end. We approach each matter entrusted to us individually and with the use of all possible methods and developed tools, thus acting quickly and effectively.

Work for unscrupulous people.

Will you have the strength to vindicate a hospital? A factory? Start with individual houses and later you will become a real debt collector. Who knows, maybe in the future you will become the best in the city.

Big business is big debt!

Remember, everyone has what you want, find a way to get it. The success of the mission depends on you.
